Title: Comparative Resume Generation using Multiple LLMs

PROMPTING PHASE

A. THE PROMPT

Create a one-page professional resume canva pdf, a3 paper size. Based on my information below, be creative but keep it professional.
Ivan Clarence A. Daquipil Davao City, 8000 Phone Number: #67676767 Email: @leavemealoneplease Professional Summary Detail-oriented and highly motivated Third-Year Architecture student with a strong foundation in sustainable design and 3D modeling. Eager to leverage technical skills in Revit, Rhino, and AutoCAD, along with a passion for urban revitalization, in an architectural internship at UNITEAM. Education: Harvard Roxas Night Market Campus Branch State University Bachelor of Architecture GPA: 4.0 Honors: Highest Honor, Cum Laude Relevant Coursework: Architectural Studio I-IV, Environmental Building Systems, Structures, History of Modern Architecture, Sustainable Urbanism. Technical Skills Digital Modeling & Drafting: AutoCAD, Revit, Rhinoceros 3D, SketchUp Rendering & Visualization: V-Ray, Enscape, Lumion, Twinmotion Design & Layout: Adobe Creative Cloud (Photoshop, Illustrator, InDesign) Fabrication & Analog: Laser Cutting, 3D Printing (FDM/SLA), CNC Milling, Hand Drafting, Physical Model Making, Sketching Selected Academic Projects The Amazing Architecture | Spring [2026] Studio Designed a 15,000 sq. ft. community library focusing on passive solar heating and natural ventilation. Developed comprehensive floor plans, sections, and elevations using AutoCAD and Revit. Created a highly detailed 1/8" = 1'-0" physical massing model using laser-cut museum board and basswood. Rendered final presentation visuals using Rhino and Enscape, earning the highest grade in the studio. High-Density Urban Pabahay | Fall [2025] Studio Conceptualized a mixed-use residential complex for 300+ residents in a dense downtown lot. Conducted rigorous site analysis and solar path studies to optimize daylighting for all residential units. Compiled a 20-page presentation booklet using InDesign and Illustrator to pitch the concept to visiting critics. Experience Assisted lead architects with the drafting of construction documents and redline corrections for 3 commercial projects using AutoCAD. Built digital 3D study models in SketchUp to help clients visualize interior spatial layouts. Organized and updated the firm’s physical materials library, directly communicating with vendor representatives. Supervise 50+ students in the safe operation of laser cutters, band saws, and 3D printers. Troubleshoot corrupted digital files (Rhino, AutoCAD) to ensure successful fabrication jobs.

Professional Summary

Detail-oriented and highly motivated Third-Year Architecture student with a strong foundation in sustainable design and 3D modeling. Eager to leverage technical skills in Revit, Rhino, and AutoCAD, along with a passion for urban revitalization, in an architectural internship.

Education

Bachelor of Architecture
Harvard Roxas Night Market Campus Branch State University
GPA: 4.0 | Honors: Highest Honor, Cum Laude

Technical Skills

Digital Modeling & Drafting: AutoCAD, Revit, Rhinoceros 3D, SketchUp
Rendering & Visualization: V-Ray, Enscape, Lumion, Twinmotion
Design & Layout: Adobe Creative Cloud (Photoshop, Illustrator, InDesign)
Fabrication & Analog: Laser Cutting, 3D Printing, CNC Milling, Hand Drafting, Model Making, Sketching

Selected Academic Projects

The Amazing Architecture | Spring 2026
Designed a 15,000 sq. ft. community library focusing on passive solar heating and natural ventilation. Developed plans using AutoCAD and Revit and created a detailed physical model. Rendered visuals using Rhino and Enscape.
High-Density Urban Pabahay | Fall 2025
Conceptualized a mixed-use residential complex for 300+ residents. Conducted site analysis and solar studies. Created a 20-page presentation booklet using Adobe tools.

Experience

- Assisted lead architects with drafting construction documents using AutoCAD.
- Built 3D models in SketchUp for client visualization.
- Organized materials library and coordinated with vendors.
- Supervised students in fabrication lab equipment usage.
- Troubleshot digital files for successful fabrication.

PROFESSIONAL SUMMARY

Detail-oriented and highly motivated Third-Year Architecture student with a strong foundation in sustainable design and 3D modeling. Eager to leverage technical skills in Revit, Rhino, and AutoCAD, along with a passion for urban revitalization, in an architectural internship at UNITEAM.

SELECTED ACADEMIC PROJECTS

The Amazing Architecture

Spring 2026 Studio

- Designed a 15,000 sq. ft. community library focusing on passive solar heating and natural ventilation.
- Developed comprehensive floor plans, sections, and elevations using AutoCAD and Revit.
- Created a highly detailed 1/8" = 1'-0" physical massing model using laser-cut museum board and basswood.
- Rendered final presentation visuals using Rhino and Enscape, earning the highest grade in the studio.

High-Density Urban Pabahay

Fall 2025 Studio

- Conceptualized a mixed-use residential complex for 300+ residents in a dense downtown lot.
- Conducted rigorous site analysis and solar path studies to optimize daylighting for all residential units.
- Compiled a 20-page presentation booklet using InDesign and Illustrator to pitch the concept to visiting critics.

EXPERIENCE

Architectural Intern / Design Assistant

Commercial Design & Drafting

- Assisted lead architects with the drafting of construction documents and redline corrections for 3 commercial projects using AutoCAD.
- Built digital 3D study models in SketchUp to help clients visualize interior spatial layouts.
- Organized and updated the firm's physical materials library, directly communicating with vendor representatives.

Studio Fabrication Monitor

Fabrication Lab Supervision

- Supervise 50+ students in the safe operation of laser cutters, band saws, and 3D printers.
- Troubleshoot corrupted digital files (Rhino, AutoCAD) to ensure successful fabrication jobs.

Which LLM performed better and why?
GEMINI performed better. I also don't know why, but maybe it understands my prompt better?

What differences did you observe?
ChatGPT couldn’t understand me better than Gemini

What improvements did you make in your final resume?
N/A

What did you learn about prompting?
Having a good prompt won’t assure good results; find the best AI tool for certain purposes.
